

# DIESEL TURBO CLEANER

ART. NR. 44511

When used as directed in fuel systems of turbo diesel engines Forté Diesel Turbo Cleaner will provide the following benefits:

- Cleans stuck Variable Geometry Turbos without dismantling.
- Actively reduces soot emissions.
- Cleans EGR valves.
- Compatible with all diesel engines.
- For diesel and bio diesel up to B30.

**Forté Diesel Turbo Cleaner** is especially formulated for turbo diesel engines provided with a Variable Turbo Geometry (VTG).

Soot parts (unburned diesel fuel) caused by an incomplete combustion deposit on the variable mechanism of the VTG turbos causing the mechanism to get stuck. The engine will hesitate in a certain speed range due to the wrong mechanism adjustment. The result will be a wrong air charge and power loss resulting in a default code.

## USER MANUAL

### For preventive application:

Add 1 x 400ml **Forté Diesel Turbo Cleaner** together with 1 dosage **Forté Advanced Diesel Fuel Conditioner** to 100 liter diesel fuel max. or 0,4% per volume.

### For repair technical application:

Add 2 x 400ml **Forté Diesel Turbo Cleaner** together with 1 dosage **Forté Advanced Diesel Fuel Conditioner** to 50 liter diesel max.

**N.B.:** **Forté Diesel Turbo Cleaner** is not suited to top up the fuel filter.
